

Accessible Delivery Preparation Checklist

Jurisdiction	INTERNAL — BUSINESS
Suggested audience	Delivery simulation
Topics	accessibility · school · delivery · adjustments

This resource is invented for software demonstration and retrieval testing. It is not endorsed curriculum guidance, a statement of cultural authority, or a substitute for consultation with relevant communities and official curriculum bodies.

Information to confirm

Confirm venue access, sensory considerations, communication preferences, mobility needs, participation alternatives, group size and a school contact for the day.

Respectful communication

Ask what adjustments support participation rather than requesting diagnoses. Record only information necessary for delivery and follow retention requirements.

Handover

Provide facilitators with approved practical adjustments through the protected operations system, not through model prompts or public notes.

Planning prompts

What should students understand or be able to do after the experience? Which claims require verification? How will students reflect without being asked to represent a culture? What access adjustments should be discussed with the provider?

Publication note

Version: demo-2026.08 · Review status: synthetic and approved for local MVP testing only · Do not publish as factual curriculum advice.
