

Education Booking Operations Playbook

Jurisdiction	INTERNAL — BUSINESS
Suggested audience	Operations simulation
Topics	booking · follow-up · confirmation · handover

This resource is invented for software demonstration and retrieval testing. It is not endorsed curriculum guidance, a statement of cultural authority, or a substitute for consultation with relevant communities and official curriculum bodies.

Booking states

Synthetic bookings move through enquiry, qualification, provisional hold, school confirmation, facilitator assignment and delivery-ready states. State changes require validated identifiers and an authorised system action.

Follow-up priority

Contact records awaiting school confirmation before facilitator assignment. Accessibility and safeguarding questions take priority over routine scheduling reminders.

Agent boundary

The assistant may prepare a follow-up draft and identify missing fields. It cannot send email, confirm a booking or assign a facilitator without a separately authorised tool workflow.

Planning prompts

What should students understand or be able to do after the experience? Which claims require verification? How will students reflect without being asked to represent a culture? What access adjustments should be discussed with the provider?

Publication note

Version: demo-2026.08 · Review status: synthetic and approved for local MVP testing only · Do not publish as factual curriculum advice.
