

Client Email Response Standard

Jurisdiction	INTERNAL — BUSINESS
Suggested audience	Communications simulation
Topics	email · response · privacy · tone

This resource is invented for software demonstration and retrieval testing. It is not endorsed curriculum guidance, a statement of cultural authority, or a substitute for consultation with relevant communities and official curriculum bodies.

Response structure

Acknowledge the request, answer only from verified records, identify missing information, provide the next step and use a professional concise tone.

Sensitive content

Never repeat unnecessary personal information. Payment card data, identity documents, medical details and safeguarding information must be handled through approved channels rather than ordinary email.

Automation limit

The assistant prepares drafts by default. Complaints, refunds, contractual language, safety incidents and unusual commitments require human review.

Planning prompts

What should students understand or be able to do after the experience? Which claims require verification? How will students reflect without being asked to represent a culture? What access adjustments should be discussed with the provider?

Publication note

Version: demo-2026.08 · Review status: synthetic and approved for local MVP testing only · Do not publish as factual curriculum advice.
