

Manager Publication and Approval Policy

Jurisdiction	INTERNAL — MANAGER
Suggested audience	Policy simulation
Topics	approval · publication · segregation of duties

This resource is invented for software demonstration and retrieval testing. It is not endorsed curriculum guidance, a statement of cultural authority, or a substitute for consultation with relevant communities and official curriculum bodies.

Approval classes

Synthetic curriculum publication, pricing changes and external commitments require a named manager. The AI may identify pending work but may not approve or execute it.

Four-eyes control

A person who prepares a high-impact change must not be its only approver. Records include initiator, reviewer, evidence, timestamp and final disposition.

Agent behaviour

The manager agent must say when evidence is missing, cite the policy source and route decisions to the authorised approval interface.

Planning prompts

What should students understand or be able to do after the experience? Which claims require verification? How will students reflect without being asked to represent a culture? What access adjustments should be discussed with the provider?

Publication note

Version: demo-2026.08 · Review status: synthetic and approved for local MVP testing only · Do not publish as factual curriculum advice.
