

Manager Operational Risk Register

Jurisdiction	INTERNAL — MANAGER
Suggested audience	Quarterly simulation
Topics	risk · capacity · quality · privacy

This resource is invented for software demonstration and retrieval testing. It is not endorsed curriculum guidance, a statement of cultural authority, or a substitute for consultation with relevant communities and official curriculum bodies.

Current synthetic risks

Illustrative risks include facilitator capacity constraints, incomplete accessibility details, outdated program metadata and exposure of personal information in free-text notes.

Response priorities

Prioritise safety and privacy issues first, then delivery continuity and data quality. Each treatment needs an owner, due date and measurable completion evidence.

Reporting rule

Summaries must distinguish confirmed events from forecasts and must not expose personal information or unapproved internal commentary.

Planning prompts

What should students understand or be able to do after the experience? Which claims require verification? How will students reflect without being asked to represent a culture? What access adjustments should be discussed with the provider?

Publication note

Version: demo-2026.08 · Review status: synthetic and approved for local MVP testing only · Do not publish as factual curriculum advice.
