This resource is invented for software demonstration and retrieval testing. It is not endorsed curriculum guidance, a statement of cultural authority, or a substitute for consultation with relevant communities and official curriculum bodies.

Workshop connection

A cultural workshop can support students to perform, compose, appreciate and respond when classroom tasks focus on observable artistic elements and the context shared by the cultural educator.

Music lens

Students identify duration, dynamics, tone colour and structure in a demonstrated piece. They can reproduce a short rhythmic pattern and describe how ensemble participation depends on listening and cooperation.

Dance lens

Students observe use of space, time, dynamics and relationships. Any movement response should be adapted for safe participation and should not copy restricted or ceremonial material.

Planning prompts

What should students understand or be able to do after the experience? Which claims require verification? How will students reflect without being asked to represent a culture? What access adjustments should be discussed with the provider?
