Program snapshot

Celebrating Lunar New Year is a 45-minute in-person or virtual experience using music, dance and stories to introduce the diversity and meaning of Lunar New Year celebrations.

Language matters

Use Lunar New Year when discussing the broader festival period and name specific community traditions when known. Avoid implying that every Asian community celebrates in the same way.

Classroom inquiry

Students compare two sourced examples of celebration, identifying similarities, differences and the evidence used. Personal sharing should always be optional.

Planning prompts

What should students understand or be able to do after the experience? Which claims require verification? How will students reflect without being asked to represent a culture? What access adjustments should be discussed with the provider?
