

South Australia Intercultural Understanding Reflection Pack

Jurisdiction	SA
Suggested audience	Years 4–8
Topics	empathy · perspective · reflection

This resource is invented for software demonstration and retrieval testing. It is not endorsed curriculum guidance, a statement of cultural authority, or a substitute for consultation with relevant communities and official curriculum bodies.

Recognising perspectives

Students distinguish observation from interpretation. They practise phrases such as I noticed, the presenter explained and I would need more information before concluding.

Empathy without assumption

Empathy involves listening and responding respectfully; it does not mean claiming to know another person's experience. Students should identify the evidence behind their response.

Exit reflection

Record one idea that challenged an assumption, one question for further inquiry and one action that could make classroom participation more inclusive.

Planning prompts

What should students understand or be able to do after the experience? Which claims require verification? How will students reflect without being asked to represent a culture? What access adjustments should be discussed with the provider?

Publication note

Version: demo-2026.08 · Review status: synthetic and approved for local MVP testing only · Do not publish as factual curriculum advice.
